

Product Datasheet

Product code: ES542TX.CR.BGO

Product type: Tungsten Carbide Cutters

Made in: Italy

Description: The 542TX is a high precision cutter belonging to the small Tungsten Carbide cutters family. The tapered and relieved geometry combined with the head dimensions offer the best advantage to access small areas and to support tip cuts. The full-flush cutting edge is suitable to perform very clean cuts on the hardest wires. The 542TX is equipped with an ESD Ergo-tek slim handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharge. The Tungsten Carbide insert blades are 82HRC hardness.
