

Product Datasheet

ES5542M.CR.BGO Product code:

Product type: **High Precision Cutters**

Made in: Italy

Description: The 5542M is a high precision cutter belonging to the small tapered and relieved cutter family.

> This type of geometry and head dimensions offer the best advantage to access small areas. The full-flush cutting edge is suitable to perform very clean cuts on small size material. The 5542M is equipped with an ESD Ergo-tek slim handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharge. The blades are

hardened to 67HRC hardness.

Small, Tapered & Relieved **Head description:**

Cutting edges: Full-Flush

soft wire 0.10-0.90 mm (38-19 AWG) **Cutting capacity:**

High carbon-chromium low alloy steel (100Cr6) **Body material:**

Body finishing: Sandblasted

Handle material: Ergo-tek Slim - Thermoplastic Elastomer + PP compound
